If you can't plant your enire home grounds, at least
awe a complete plan. Then,
suild as you go and grow.

First step, visit other
gurdens and homes, especially
hose designed by proressionals. Ask questions.
Friends love to talk aboutheir gardens and you can
gather bushles of ideas.

Netania Davrath: Youth, Beauty and Talent

By Catherine O'Donnell

Tijuana Brass to

Dempster Jr. High Musical Tonight

Two ways to get the best phone service during the strike.

one

Use your phone book.

Whenever you need a phone number, try looking it up in your directory first-instead of calling Information. It's easier, and you'll get your number faster. In cases where Information is the only way to get a number, like a new number that's not listed in the phone book, we sait your patience and apologize for any delay you may experience.

Dial your calls direct.

Dial your calls direct.

Calls you dial younsel will go through
without undus delay during the strike.

To make a Long Distance Direct Dialed
call anywhere in the country, all you
need is the Arac Code of the city you're
calling, and the phone number. Don't
know the Arac Code of you [probably
find it by looking in the front pages of
your phone book. To got a phone number
in a distant city, just dial the city's
Arac Code, then 556-1212—the operator
there will help you.

By the way, Direct Dialed calls are not only easier and faster, they go through at low station-to-station rates.

Our first concern during the strike is to bring you phone service that's as close to normal as possible ... with delay and inconvenience at a minimum. So, whenever you can, look up the number you need in your phone book, then dial it direct. That's really all it takes ... your finger and the phone book.
